The **Bamboo** Thread

Gamma Di Felisi is the first company worldwide using the Bamboo thread for embroidered albs

Bamboo thread is extremely soft as the silk is. It contains a natural antibacterial, the “Bambu’ kun”, which renders it highly breathable and does not allow moisture accumulation and preventing one from sweating. It also does not cause allergic skin reactions therefore it is suitable for warm seasons.

Summarizing we see the following characteristics:

- Garments made of Bamboo fabric are fresher to 1-2 degrees less compared to other types of fabrics.
- It is extremely soft and delicate.
